

Сем. Clausiidae

Rhodinicola polydora Björnberg & Radashevsky, 2011

Первописание: Björnberg, T.K.S. & Radashevsky V.I. (2011). A new species of *Rhodinicola* (Copepoda: Clausiidae), parasitic copepod of the shell-boring polychaete *Polydora brevipalpa* (Annelida: Spionidae) from the Sea of Japan. *Invertebrate Zoology/Zoologiya Bespozvonochnykh* 8(2):103-114.

ГОЛОТИП: MIMB 26496, 1 экз., female, (70% этанол), Sea of Japan, Vostok Bay of Peter the Great Bay, 132°44,0 E, 42°53,6 N, 3 m, from *Polydora brevipalpa* boring in shell of Yesso scallop *Mizuhopecten yessoensis*, 08.04.2009, coll. Radashevsky V.I.

ПАРАТИП: MIMB 26497, 1 экз., female with egg strings, (70% этанол), Sea of Japan, Vostok Bay of Peter the Great Bay, 132°44,0 E, 42°53,6 N, 10 m, from *Polydora brevipalpa* boring in shell of Yesso scallop *Mizuhopecten yessoensis*, 06.10.2007, coll. Radashevsky V.I.

ПАРАТИП: MIMB 26498, 1 экз., female, (70% этанол), Sea of Japan, Vostok Bay of Peter the Great Bay, 132°44,0 E, 42°53,6 N, 3 m, from *Polydora brevipalpa* boring in shell of Yesso scallop *Mizuhopecten yessoensis*, 08.04.2009, coll. Radashevsky V.I.

ПАРАТИПЫ: MIMB 26499, 19 экз., 17 females, 2 males, (70% этанол), Sea of Japan, Vostok Bay of Peter the Great Bay, 132°44,0 E, 42°53,6 N, 6 m, from *Polydora brevipalpa* boring in shell of Yesso scallop *Mizuhopecten yessoensis*, 12.12.2010, coll. Radashevsky V.I.

ПАРАТИПЫ: MIMB 26500, 19 экз., 15 females, 4 males, (70% этанол), Sea of Japan, Vostok Bay of Peter the Great Bay, 132°44,0 E, 42°53,6 N, 6 m, from *Polydora brevipalpa* boring in shell of Yesso scallop *Mizuhopecten yessoensis*, 12.12.2010, coll. Radashevsky V.I.
